PRICE LIST

54th Year

Harrison Nur. Co.

The YORK NURSERIES

500 Acres

A modern nursery equipped with five irrigation pumps, and a Skinner over-head spraying system. This enables us to grow normal well developed stock regardless of weather conditions.

1887

1941-42

Reg. U. S. Pat. Off.

Let this TRADE MARK be your buying guide. It stands for

Quality and Service

LIFE IS PRECIOUS—

and should be protected against possible injury. Nursery stock may be thrown around like old shoes, but what about it's life? We are specialists in handling "PLANT LIFE" from seed to maturity, and delivery to you.

TO OUR PATRONS

If any nursery stock proves untrue to description under which it is sold, we hold ourselves in readiness, on proper proof, to replace all such nursery stock that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

This Price List includes the best of the older varieties and the cream of the newer sorts. We feel sure that they will give satisfaction to every customer. We grow and can furnish other varieties than those named, and solicit correspondence regarding the same. The ones listed have been found by test to be well adapted to this latitude, and are general favorites.

OUR MOST LIBERAL GUARANTEE

We guarantee all nursery stock to be State Inspected, free from disease, and to reach you in a live, healthy, vigorous condition. If any stock fails to grow by July 1st, and notice is sent to the Harrison Nursery Co., at York, Nebraska, on or before July 5th, free replacement will be made. Any stock dying the first year after July 1st, will be replaced the following spring at one half of current list price. This guarantee is backed by a firm rendering satisfactory service for over a half century.

TRANSPORTATION CHARGES

Transportation charges will be prepaid by us on everything listed in this Price List.

FRUIT TREES

Harrison's trees have a root system one year older than the body. This insures a strong, vigorous tree.

APPLES, CRAB APPLES, PEARS STANDARD AND PLUMS

Grade	Per 100	Doz.	Each
SPECIAL SELECT	\$95.00	\$13.00	\$1.25

THIS IS HOW THEY LOOK AROUND A HOME

SHEARED EVERGREENS IN FIELD NO. 4

DRAW YOUR OWN CONCLUSIONS

At the right is a picture of one of our two year Raspberries compared with a cheap two year grade. Which one would produce the best results?

Same age, out of same row

At the left is a picture of one of our two year No. 1 Roses, compared with a two year cheaper grade. Which one do you suppose would be cheaper in the end?

.....

When you have a toothache you go to a dentist. When your auto refuses to pull you, it is taken to a garage. You take your shoes to a shoemaker when they need attention. You go to an attorney for legal advice. Why do you do this? Because you know a specialist will be able to render you the advice you desire. Now, please remember that we are specialists in growing and handling nursery stock. We are interested in no other business. We are not a Jack-of-all-trades and master of none.

Do not become confused when you hear cheap prices quoted that seem to be cheaper than our prices. We usually get what we pay for. It is unreasonable to suppose that we can buy a dollar value for fifty cents. There is just as much difference in trees as there is in the human or live stock family. The best quality in any kind of life pays large dividends. We learn this from actual experience which often costs us money and time.

In addition to the quality of stock we grow, we render service that costs us money, but saves money for the purchaser. We call your attention to our most liberal guarantee. We do not ask if you failed to give the stock proper care, whether the injury was done by the elements, goats or rabbits. We also prepay transportation charges on every thing shown in this list which is no small item. Expert information is freely given our customers. It is important that specialists are solicited for advice or information.

Always remember that nursery stock can not be abused in any way without serious consequences. Life must be protected at all times whether in the human, animal or tree family. Specialists handle our stock from seed to maturity and delivery to you. This is worth something to us, and we know it is worth just as much to you.

The fact that Harrison Nursery Co. has been doing business in one place for over a half century proves that we have always given our customers good quality stock at reasonable prices.

.....
